

GALUMINIUM GROUP CO.,LTD. http://www.gzga.com.cn

Galuminium Group Co., Ltd., was established in 1993 headquartered in Guangzhou city. Galuminium Group Co., Ltd., one of the leading companies in China, specializes in bauxite mining, production of anodized alumina, aluminium smelting, research and development of aluminium products, production and sales of aluminium profiles and finished aluminium windows and doors as well as curtain wall. At present Galuminium Group Co., Ltd owns seventeen branch companies with more than 2000 staff working in our six big production bases located in Guangzhou city (three production bases), Foshan city, Dongguan city and Guiyang city. Annual output for profiles is about 50,000

tons, windows and doors annual capacity is about 30,000 m². With more than 20 years experience, our net work covers more than 100 different areas and cities such as America, Europe, Australia, Africa and South America etc.

Certificates and Honors

Famous trademark of China

Specialized Second-grade Certificate for Construction Wall Project Designing

Credit Rating Certificate

ISO9001:2008 Certificate

ISO14001:2004 Certificate

ISO9001:2000 Standard Certificate

Canada AAMA Certificate

Nigeria SONCAP

Production Equipment

3600 Tons large-size extrusion producing line

Anodizing producing line

Powder coating producing line

Advanced CNC processing center

Quality Inspections

Weathering Test

Tensile Test

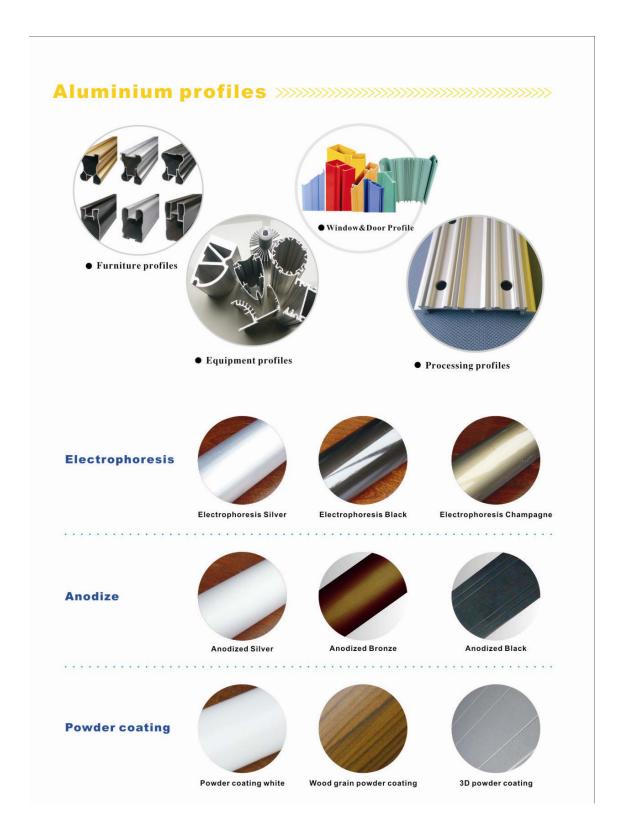

Tests of air permeability, watertightness, wind load resistance

Salt spray test

Casement window

Glass:double/single glazing Profile:thermal-

break or common profile

Thickness:1.2-1.4mm Can be outward or inward opening

Sliding window

Glass:double/single glazing Profile:thermalbreak or common profile

Thickness:1.2-1.4mm Two/three track available

Awning window

Glass:double/single glazing Profile:thermal-

break or common profile **Thickness:**1.4mm Strenghtening air ventilation

Tilt&Turn window

Glass:double/single glazing

glazing

Profile:thermalbreak or common
profile

Thickness:1.4mm Two opening style(side-hung & bottom-hung) connected

Casement window with manual opener

Glass:double/single

glazing
Profile:thermalbreak or common profile

Thickness:1.4mm Fixed fly screen available

Silding door

Glass:single/ double

glazing
Profile:thermalbreak or common
profile

Thickness:2.0mm Large Multisash available

Folding door

Glass:double/single

Profile:thermalbreak or common profile

Thickness:2.0mm Large multi sash available

Casement door

Glass:double/single glazing

Profile:thermalbreak or common profile

Thickness:2.0mm

Spring door

Glass:single glazing
Profile: common
alu profile

Thickness:2.0mm

Office partition

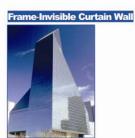

Railing

color /style as per drawings

Sliding door

Glass:double glazing Profile:Outside_thermal break/common aluminium profile;Inside_Ecological wood

Thickness: alu profile 2.0mm Large sash available

Casement window

Glass:double glazing Profile:Outside_thermal break aluminium profile;Inside_Ecological wood Thickness: alu profile

1.4mm

Fixed window

Glass:double glazing Profile:Outside_thermal break aluminium profile;Inside_Ecological

wood

Thickness: alu profile
1.4-1.6mm

Tilt/turn combination window

Glass:double glazing Profile:Outside_thermal break aluminium profile;Inside_Ecological wood

Thickness: alu profile 1.4mm large sash available

Folding door

Glass:double glazing Profile:Outside_thermal break aluminium profile;Inside_Ecological wood

Thickness: alu profile 2.0mm large sash available

Alu-wood Profile
